

# Deliverables Spec Sheet

## Format Overview

Aerial Accuracy • West Texas • Drone + Thermal + RTK (deliverables vary by asset type)

Updated: December 16, 2025

**Note:** This is a format overview. Example files available upon request; customer data is never shared without written permission.

Asset type	Typical deliverables	Primary buyer use
Utility-Scale Solar PV	<ul style="list-style-type: none"><li>• KML/KMZ pins + CSV anomaly list</li><li>• Thermal + RGB image pairs</li><li>• Ranked work package (Critical / High / Med / Low)</li><li>• Optional: post-repair verification re-flight</li></ul>	Dispatch repairs • warranty documentation • prioritize O&M spend
Commercial Roofs	<ul style="list-style-type: none"><li>• Thermography summary PDF</li><li>• Annotated roof plan / moisture map (where applicable)</li><li>• Photo log of anomalies</li><li>• Recommendations for core sampling / leak investigation</li></ul>	Preventive maintenance • insurance documentation • warranty claims
Telecom / Cell Towers	<ul style="list-style-type: none"><li>• Thermal/RGB photo log of equipment shelters, batteries, connectors</li><li>• Hotspot list with priority tags</li><li>• PDF summary for maintenance ticketing</li></ul>	Reduce downtime • prevent equipment failure • document conditions
Electrical / Substations	<ul style="list-style-type: none"><li>• Thermal imagery of equipment under load</li><li>• Priority list of hotspots</li><li>• NFPA 70B-style photo log (format)</li><li>• Optional: follow-up after repairs</li></ul>	Reliability • safety • maintenance planning
Wind (selected components)	<ul style="list-style-type: none"><li>• Thermal/RGB image set</li><li>• Nacelle hotspot screening</li><li>• PDF summary for planned maintenance</li><li>• Optional: blade erosion visual screening</li></ul>	Early detection • reduce climb risk • plan repair windows

**Rapid response:** For urgent issues (e.g., underperformance, suspected overheating), we can perform a targeted triage flight and deliver a prioritized list quickly, then expand coverage as needed.
